SUMMARY

Software engineer focused on data-driven analytics, automation, and scalable cloud applications. Familiarity with developing modern web applications using Next.js, React, TypeScript, and Python. Drives engineering efficiency through technical leadership, automation, and modern AI-assisted development practices.

SKILLS

- Software development
- React and Next.js
- Python analytics
- Data visualization
- SQL database design
- Cloud services (Azure and AWS)
- DevOps practices
- CI/CD management
- Version control (Git/GitHub)
- Data-driven decision making
- Cross-functional collaboration

Austin Pierson

EXPERIENCE

June 2023 - Current

Software Engineer Komatsu | Tucson, AZ

- Designed, developed, and maintained data-driven analytics applications for the mining industry using modern technologies (Next.js/React/TypeScript/Python)
- Developed Python-based analytics from operational and historical data to enhance mining operations and inform decision-making.
- Designed and implemented DevOps and cloud deployment workflows through Github/Azure DevOps using Azure services such as Azure App Service and Azure Container Registry.
- Contributed throughout the development lifecycle, including frontend architecture, backend integration, cloud infrastructure, CI/CD, and deployments.
- Created internal tools and workflows to boost team productivity, streamline engineering processes, and facilitate AI-assisted development.
- Upskilled team members through knowledge transfers, technical guidance, and development practices across DevOps and modern AI-assisted development.

February 2020 - April 2020

Python Developer HFE International | Tucson, AZ

- Designed and developed Python scripts to simulate and document performance of Arduino micro-controller based equipment.
- Assisted in developing and testing Arduino firmware, ensuring functionality for company devices.
- Collaborated with engineers to clarify requirements and business specifications for projects.

EDUCATION

May 2022

Master of Science | Computer Engineering
University of Arizona, Tucson, AZ

May 2021

Bachelor of Science | Computer Engineering
University of Arizona, Tucson, AZ
